

Creating a restful space that uses trees

The present situation

In the downtown area...

- There is no quiet place because it is crowded !
- People's eyes make us feel anxious !

However...

- We wish we had a place to relax downtown.
- We wish we had a place we can gather.

Therefore !!

Expanded map of site →

← Map of site

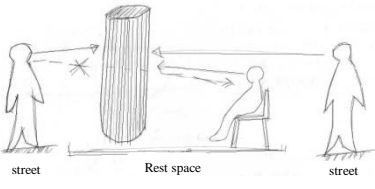

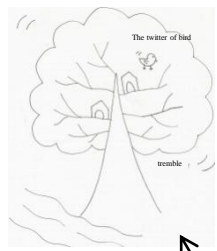

Design of a restful space where everybody can relax

- Installation of a roof that uses **ivy**
- Effect of healing by **sound**
- Space is enclosed by a **wall**
- Privacy created by a **Level difference** with the street

Result !!

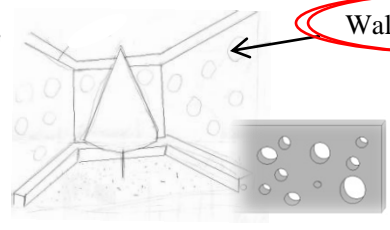

- ◎ A symbolic element is there
⇒ **It can catch people's attention.**
- ◎ Offer a place of recreation and relaxation
⇒ **The neighbors can readily use it.**
- ◎ Safety
⇒ ☆ **It is possible to use this space comfortably because there are no blind corners.**

Symbol

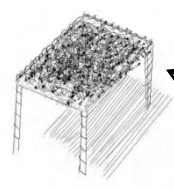

Take the sound of nature in

Wall that has holes

Symbolic tree

Roof of ivy

Level difference
